

### **AMATEUR-BUILT AIRCRAFT**

Unless otherwise stated in the Policy Schedule, coverage under AVN 1C Section 1 does not include coverage for any loss occurring whilst the Aircraft is in flight and performing the first five flying hours (airborne time) and before the aircraft has made five flights (take-offs) following construction or assembly of the Aircraft.

After the said five flying hours and five take-offs the insurance covers at normal terms.

The deductible as stated in the Policy Schedule for AVN 1C Section 1 is doubled in respect of any losses occurring during the period until the Aircraft has completed its test program and has obtained a valid Certificate of Airworthiness.
