

## BERING SEA TRANSIT CLAUSE

Notwithstanding anything contained in this insurance to the contrary, it is hereby agreed that when on through voyages to or from the Far East, the insured vessel may navigate the Bering Sea provided that:

- 1) the vessel has on board the appropriate hydrographic charts corrected up to date.
- 2) entry is made through the Unimak Pass and exit west of Buldir Island or vice versa and;
- 3) the vessel is equipped and properly fitted with marine radar, a satellite navigator or Loran, sonic depth sounding apparatus, radio direction finder and giro compass, all fully operational and manned by qualified personnel.

(Alternatively the vessel may enter or leave through the Amchitak, Amukta or Attu Passes, but only when equipped and properly fitted with marine radar, Loran, a satellite navigator, sonic depth sounding apparatus, radio direction finder, giro compass and a weather facsimile recorder, all fully operational and manned by qualified personnel.)
